

## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-3, 6-17, 19, 21-24 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 14, the references teach all limitations of the claim except the control signal data in each field including (1) an identifier uniquely identifying the identified user, (2) a first indicator specifying one of an acknowledgment and a negative acknowledgment of a packet transmitted by the identified user and (3) a second indicator specifying the transmit rate at which the identified user is to transmit in the uplink, the first indicator being a first bit value representing either the acknowledgment or the negative acknowledgment, the second indicator being a second bit value representing the transmit rate, the first and second indicators and the identifier being transmitted at the same time.

This taken with other limitations of the dependent claims is considered novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
